

Brookfield Residential
Brighton Crossings Construction Homeowner's Notice

Dear Residents,

As part of our ongoing efforts to keep Brighton Crossings residents informed about development activities in the community, we want to notify you about upcoming construction and parking impacts near your residence.

Starting Thursday, July 11th, construction will begin on a future parking lot and several new home lots on the site north of Crestone Peak St. and east of N 42nd Ave.

Because this site has served as overflow parking for sporting events at the public field on the north end of Brighton Crossings' Water Tower Park for several years, we expect an increase in street parking in the surrounding neighborhood. Upon completion of site grading, which is anticipated to finish in mid-August, a temporary parking area will be opened until construction on the permanent parking lot begins.

We appreciate your patience as we work to continue the development of the Brighton Crossings community.

Thank you for your cooperation.

Sincerely,
Brookfield Residential
